

GPRS ready Smartbook Series, models: 7C and 8XP

The true-form Smartbook series are based upon a four tier motif of: mobility, wireless, expandability, & affordability.

New models Smartbook-7c and Smartbook-8XP include an embedded GPRS dual mode module (single SIM, 900MHz / 1800MHz) to meet standard global wireless platforms and for those who value mobility and remote, secure wireless services. An integrated keyboard (English), two pointing devices, stylus pen, touch screen, and tablet software tools all allow for data input and navigation - a recognized score above a current Tablet PCs and Notebook PC series.

7C and 8XP are cost-effective Mini-Notebook with Tablet PC features, for all mobile computing requirements where wireless flexibility is a priority. The true-form Smartbook design series are based upon a five-tier motif of: mobility, wireless applications, expandability, and affordability; employing the full computing functionality of a notebook PC with the portability and ultra lightweight efficiencies found in PDAs.

Smartbook 7C, Intergrated GPRS (single SIM, mode: 900MHz /1800MHz) Low powerful Fan-less Intel Strong Arm 206 MHz mobile processor, 64MB memory, 32MB Flash memory, USB, and CF slot for expandability to compliment intended applications. 7C small configuration and only 768 grams. 7C's easy-to-use 7 inch active TFT color LCD touch screen offers 800 x 480 resolution and settings contrast / lightness dials.

Standard Operating Systems: Embedded Windows CE.NET, 7C is also fully loaded with the Microsoft Pocket Office with productivity suite as well as customized vertical market applications.

Smartbook 8XP, Intergrated GPRS (single SIM, mode: 900MHz /1800MHz) Powerful 800 MHz Fan-less Transmeta Crusoe mobile processor, 256MB memory, 20GB hard drive, USB, and CF slot for expandability to compliment intended applications. 8XP small configuration and only 1088 grams. 8XP's easy-to-use 8.9 inch active TFT color LCD touch screen offers 1024 x 600.

Standard Operating Systems: Pre-installed with the user's choice of Windows XP Home Edition or Professional, 8XP is also compatible with the Microsoft Office productivity suite as well as customized vertical market applications.

Shared specifications of Smartbook 7C and 8XP: Intergrated GPRS (single SIM, mode: 900MHz /1800MHz), true colour XGA TFT/LCD, Touch Screen, Stylus Pen, Right / Left speakers Speakers / Mic, Keyboard, CF slot (Type II) for removable flash memory, USB, Fast Ethernet 10/100 RJ-45, VGA, & mobile phone software features.
